27. (New) The apparatus of Claim 14, wherein the results are the formation of a precipitate at a specific location.

REMARKS

The claims have been amended to correct multiple dependencies and obvious typographical errors and to remove references to the figures from the claims. The specification has been amended to recite the priority applications. The word "CLAIMS" has been deleted and substituted by "WHAT IS CLAIMED IS" so that subsequently appearing claims will be the object of a sentence as specified by M.P.E.P. 608.01(M). As a result of this preliminary amendment, Claims 25-27 have been added and Claims 1-24 have been amended. Accordingly, Claims 1-27 are presented for examination. No new matter is being added herewith.

CONCLUSION
